Particular Items to Be Seized

I. Information to be disclosed by Google LLC

The information described in Attachment A, via the following process:

1. Google LLC shall query location history data based on the Initial Search Parameters specified in Attachment A. For each location point recorded within the Initial Search Parameters, and for each location point recorded outside the Initial Search Parameters where the margin of error (*i.e.*, “maps display radius”) would permit the device to be located within the Initial Search Parameters, Google LLC shall produce to the government information specifying the corresponding unique device ID, timestamp, location coordinates, display radius, and data source, if available (the “Device List”).
2. The government shall review the Device List and identify to Google LLC the devices about which it seeks to obtain Google LLC account identifier and basic subscriber information. The government may, at its discretion, identify a subset of the devices.
3. Google LLC shall disclose to the government identifying information, as defined in 18 U.S.C. § 2703(c)(2), for the Google LLC Accounts associated with each device ID appearing on the Device List about which the government inquires.

II. Information to Be Seized

All information described above in Section I that constitutes evidence of violations of 18 U.S.C. § 844(i) (arson), involving unknown persons.
